# Disclaimer (1/2)

Credit Suisse has not finalized its 2022 Financial Report and Credit Suisse's independent registered public accounting firm has not completed its review of the condensed consolidated financial statements (unaudited) for the period. Accordingly, the financial information contained in this document is subject to completion of quarter-end procedures, which may result in changes to that information.

This material does not purport to contain all of the information that you may wish to consider. This material is not to be relied upon as such or used in substitution for the exercise of independent judgment.

Please also refer to our 2022 Earnings Release for additional information.

## **Cautionary statement regarding forward-looking statements**

This document contains forward-looking statements that involve inherent risks and uncertainties, and we might not be able to achieve the predictions, forecasts, projections and other outcomes we describe or imply in forward-looking statements. A number of important factors could cause results to differ materially from the plans, targets, goals, expectations, estimates and intentions we express in these forward-looking statements, including those we identify in "Risk factors" in our Annual Report on Form 20-F for the fiscal year ended December 31, 2021 and in the "Cautionary statement regarding forward-looking information" in our 2022 Earnings Release published on July 27, 2022 and submitted to the US Securities and Exchange Commission, and in other public filings and press releases. We do not intend to update these forward-looking statements.

In particular, the terms "Estimate", "Illustrative", "Ambition", "Objective", "Outlook", "Goal", "Commitment" and "Aspiration" are not intended to be viewed as targets or projections, nor are they considered to be Key Performance Indicators. All such estimates, illustrations, ambitions, objectives, outlooks, goals, commitments and aspirations are subject to a large number of inherent risks, assumptions and uncertainties, many of which are completely outside of our control. These risks, assumptions and uncertainties include, but are not limited to, general market conditions, market volatility, increased inflation, interest rate volatility and levels, global and regional economic conditions, challenges and uncertainties resulting from Russia's invasion of Ukraine, political uncertainty, changes in tax policies, scientific or technological developments, evolving sustainability strategies, changes in the nature or scope of our operations, changes in carbon markets, regulatory changes, changes in levels of client activity as a result of any of the foregoing and other factors. Accordingly, these statements, which speak only as of the date made, are not guarantees of future performance and should not be relied on for any purpose. We do not intend to update these estimates, illustrations, ambitions, objectives, outlooks, goals, commitments, aspirations or any other forward-looking statements. For these reasons, we caution you not to place undue reliance upon any forward-looking statements.

## **We may not achieve the benefits of our strategic initiatives**

We may not achieve all of the expected benefits of our strategic initiatives. Factors beyond our control, including but not limited to the market and economic conditions (including macroeconomic and other challenges and uncertainties, for example, resulting from Russia's invasion of Ukraine), changes in laws, rules or regulations and other challenges discussed in our public filings, could limit our ability to achieve some or all of the expected benefits of these initiatives.

## **Estimates and assumptions**

In preparing this document, management has made estimates and assumptions that affect the numbers presented. Actual results may differ. Annualized numbers do not take into account variations in operating results, seasonality and other factors and may not be indicative of actual, full-year results. Figures throughout this document may also be subject to rounding adjustments. All opinions and views constitute good faith judgments as of the date of writing without regard to the date on which the reader may receive or access the information. This information is subject to change at any time without notice and we do not intend to update this information.

## **Statement regarding non-GAAP financial measures**

This document contains non-GAAP financial measures, including results excluding certain items included in our reported results as well as return on regulatory capital and return on tangible equity (which is based on tangible shareholders' equity). Further details and information needed to reconcile such non-GAAP financial measures to the most directly comparable measures under US GAAP can be found in the Appendix as well as in the 2022 Earnings Release, which is available on our website at [www.credit-suisse.com](http://www.credit-suisse.com).

Our estimates, ambitions, objectives, aspirations and targets often include metrics that are non-GAAP financial measures and are unaudited. A reconciliation of the estimates, ambitions, objectives, aspirations and targets to the nearest GAAP measures is unavailable without unreasonable efforts. Results excluding certain items included in our reported results do not include items such as goodwill impairment, major litigation provisions, real estate gains, impacts from foreign exchange and other revenue and expense items included in our reported results, all of which are unavailable on a prospective basis. Such estimates, ambitions, objectives and targets are calculated in a manner that is consistent with the accounting policies applied by us in preparing our financial statements.

## **Statement regarding capital, liquidity and leverage**

Credit Suisse is subject to the Basel framework, as implemented in Switzerland, as well as Swiss legislation and regulations for systemically important banks, which include capital, liquidity, leverage and large exposure requirements and rules for emergency plans designed to maintain systemically relevant functions in the event of threatened insolvency. Credit Suisse has adopted the Bank for International Settlements (BIS) leverage ratio framework, as issued by the Basel Committee on Banking Supervision (BCBS) and implemented in Switzerland by the Swiss Financial Market Supervisory Authority FINMA.

Unless otherwise noted, leverage exposure is based on the BIS leverage ratio framework and consists of period-end balance sheet assets and prescribed regulatory adjustments. The tier 1 leverage ratio and CET1 leverage ratio are calculated as BIS tier 1 capital and CET1 capital, respectively, divided by period-end leverage exposure.

## **Sources**

Certain material in this document has been prepared by Credit Suisse on the basis of publicly available information, internally developed data and other third-party sources believed to be reliable. Credit Suisse has not sought to independently verify information obtained from public and third-party sources and makes no representations or warranties as to accuracy, completeness, reasonableness or reliability of such information.

# Significant markets impact on our Investment Bank and Wealth Management while Swiss Bank remained resilient

## Adjusted PTI

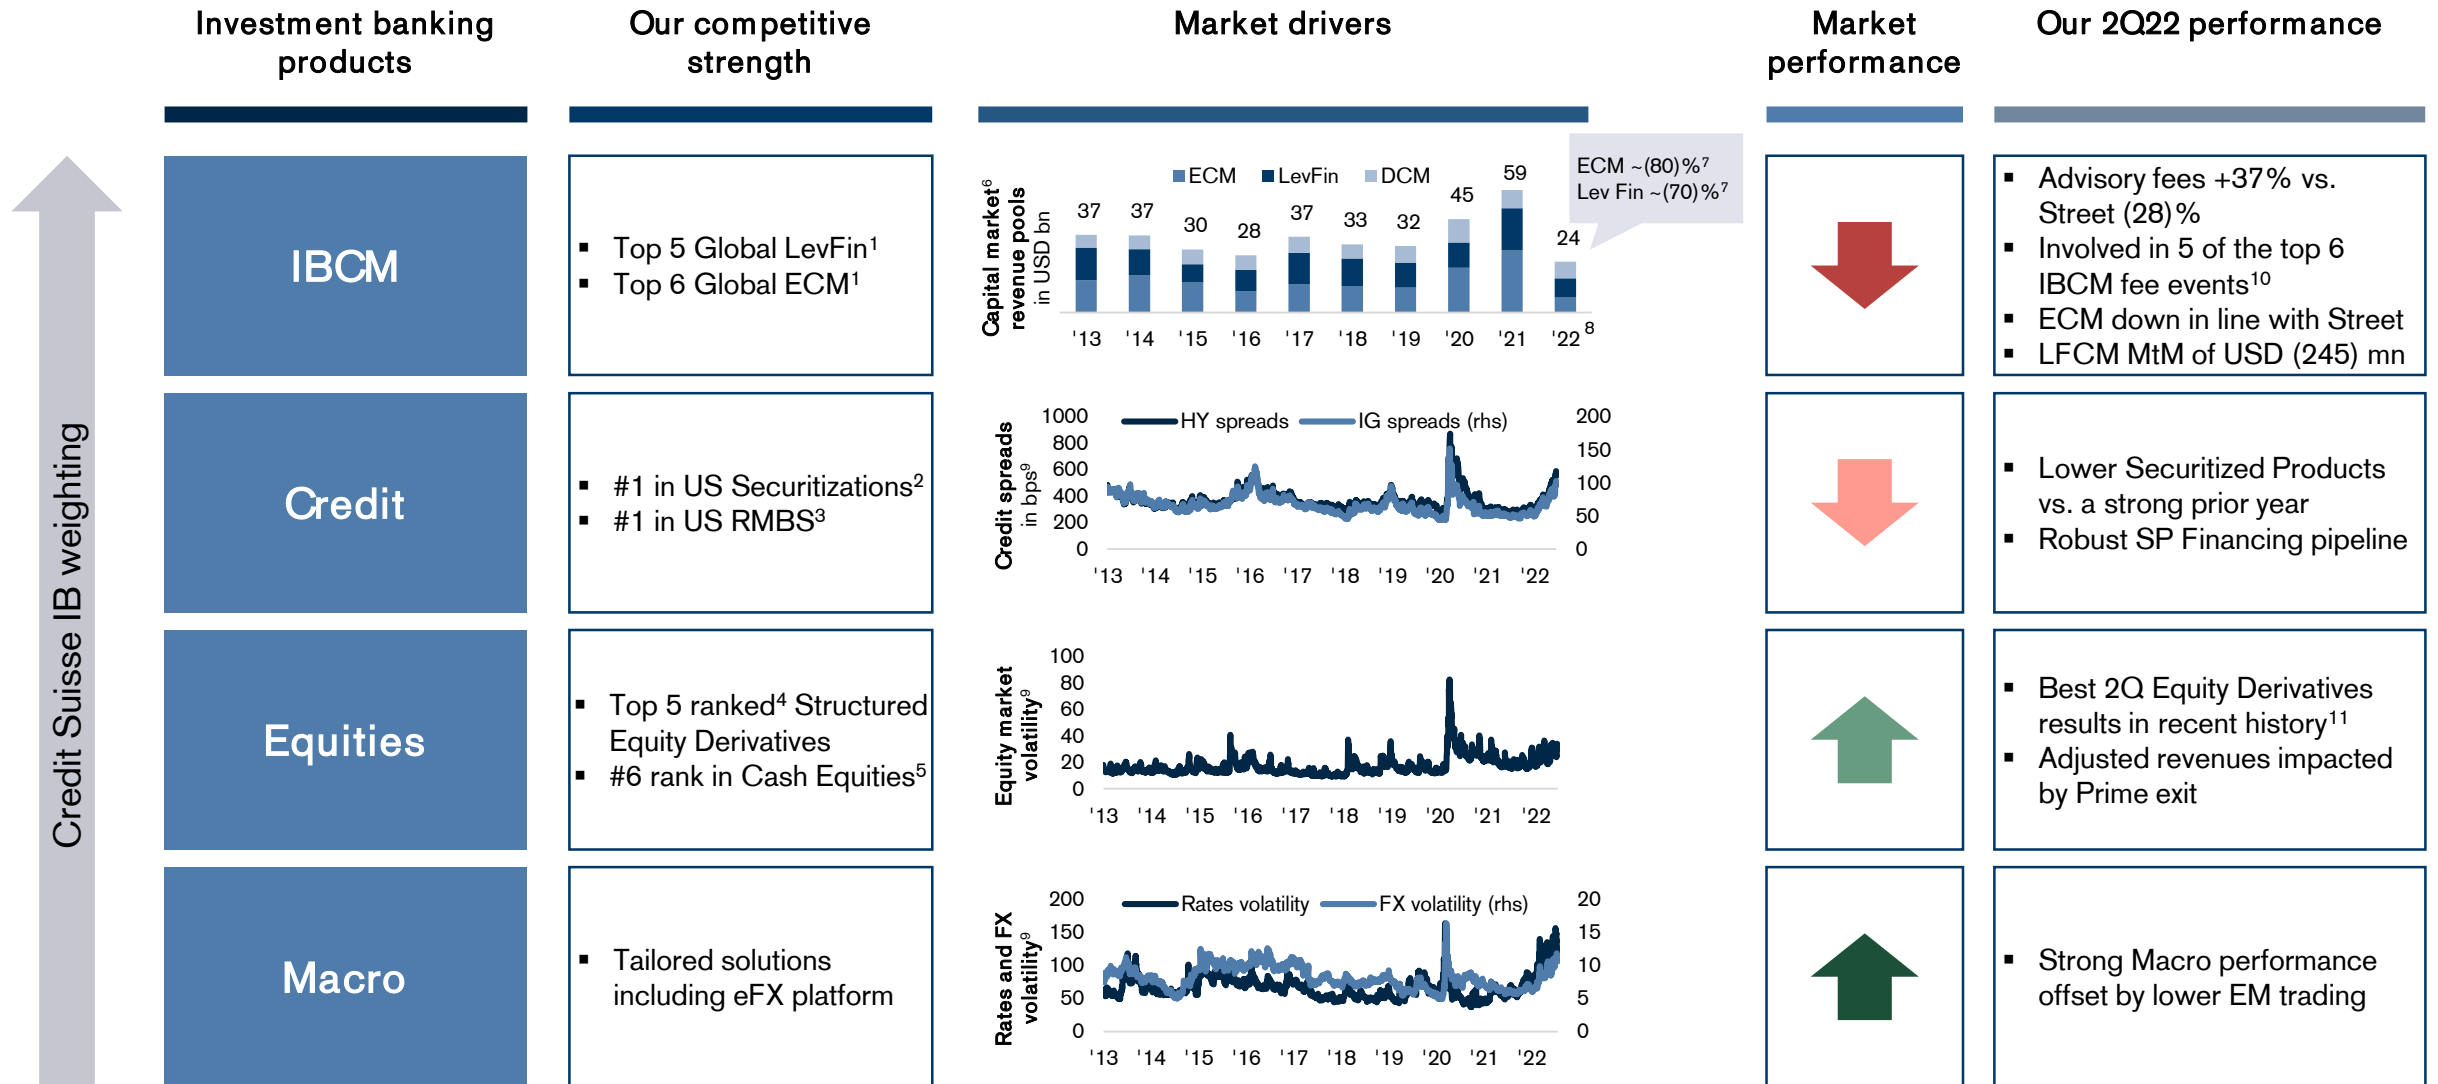

## 2Q22 commentary

- Improving NII from higher rates offset by lower recurring fees and transaction-based revenues
- Continued investments in relationship managers, Group-wide technology, risk and compliance and in business growth including China resulting in 18% higher operating expenses
- Net inflows in APAC and Americas offset by outflows in EMEA and Switzerland; 1H22 NNA of CHF 3.4 bn (including CHF 1.9 bn of Russia-related outflows)
- Capital Markets revenues impacted by substantially lower ECM, Leveraged Finance market activity and Leveraged Finance mark-to-market losses
- Higher Advisory revenues and strong Equity Derivatives and Macro trading
- Net revenues up 3% across all major revenue lines, offset by normalized provisions for credit losses and higher operating expenses from increased deferred compensation, investments and marketing expenses; RoRC<sup>†</sup> at 12%
- PTI adversely impacted by a challenging market environment, partially offset by lower operating expenses reflecting the release of certain expense provisions related to the SCFF matter
- Net asset outflows across both traditional and alternative investments, partially offset by inflows from investments and partnerships
- Pre-tax losses decreased mostly due to lower operating expenses, notwithstanding volatile interest rate environment

## Net revenues down 55% YoY

- Capital Markets revenues impacted by substantially lower ECM and Leveraged Finance market activity and include USD (245) mn of MtM losses in Leveraged Finance
  - Reduced non-IG underwriting portfolio to USD 5.9 bn (down 20% vs. 1Q22)
- Higher Advisory revenues from significant deal closings
- Higher GTS revenues due to strong Equity Derivatives and Macro trading driven by higher volatility partially offset by lower Emerging Markets trading and financing activity
- Fixed Income results reflect lower Emerging Markets revenues, Securitized Products trading activity vs. a strong prior year as well as reduced GCP revenues as lower primary issuance led to lower trading volumes
- Reduced<sup>1</sup> Equities revenues reflecting the exit of Prime Services<sup>3</sup>

## Higher credit provisions of USD 57 mn

reflecting an increase in both non-specific provisions, compared to a release in 2Q21, and higher specific provisions

## Operating expenses flat YoY

as reduced revenue-related costs were offset by higher Group-wide technology, risk and compliance costs

## Pre-tax loss of USD (860) mn

driven by significantly lower client activity and reduced risk appetite across businesses

## Delivery of allocated capital reductions

## Net revenues down 25%

due to lower performance, transactions & placement revenues reflecting CHF (30) mn of investment-related losses, CHF (21) mn lower performance fees, CHF (16) mn lower placement fees and lower management fees (reflecting 9% drop in AuM)

## Operating expenses down 5%

mainly reflecting release of certain expense provisions related to the SCFF matter, partially offset by higher Group-wide technology, risk and compliance costs and increased cash accruals for compensation due to normalized deferral levels

## Pre-tax income down 75%

reflecting declining market levels, reduced client risk appetite and declining activity levels

## AuM down 9%

or CHF (44) bn, of which CHF (41) bn is due to market and FX effects

## NNA of CHF (6.1) bn

with outflows across both traditional investments and alternative investments, partially offset by inflows from investments and partnerships

### Net revenues up 3% across the board

- Net interest income up 3%, mainly driven by higher deposit income; 3Q22 net interest income expected to decrease sequentially due to lower benefits from the recent SNB increase of interest rates
- Recurring commissions and fees up 3% supported by higher revenues from improved performance in our investment in Swisscard
- Transaction-based revenues up 2% driven by increased FX fees

### Continued low provision for credit losses

at less than 5 bps of our net loans; normalized vs. 2Q21

### Operating expenses up 6%

from increased cash accruals for compensation due to normalized deferral levels, higher Group-wide technology, risk and compliance costs as well as targeted advertising and marketing campaigns

### Pre-tax income down 10%

revenue increase outweighed by provisions and costs; RoRC<sup>†</sup> at 12%

### CBV down 6% driven by markets

- Decreased assets under management due to declining markets
- NNA of CHF (1.6) bn mainly driven by CHF (1.2) bn from institutional clients
- Still robust NNA of CHF 4.4 bn in 1H22 driven by institutional clients

# Notes

## General notes

- Throughout this presentation and the 2Q22 Results presentation rounding differences may occur
- Unless otherwise stated, all financial numbers presented and discussed are adjusted. Results excluding certain items included in our reported results are non-GAAP financial measures. All percentage changes and comparative descriptions refer to YoY measurements unless otherwise specified
- Estimates and assumptions are based on currently available information and beliefs, expectations and opinions of management and include all known facts and decisions as of July 27, 2022. Actual results may differ
- Our absolute cost base ambition is measured using adjusted operating expenses at constant 2021 FX rates
- Unless otherwise noted, all **CET1 capital, CET1 ratio, CET1 leverage ratio, Tier 1 leverage ratio, risk-weighted assets** and **leverage exposure** figures shown in these presentations are as of the end of the respective period and, for periods prior to 2019, on a “look-through” basis
- Gross and net margins are shown in basis points; gross margin = net revenues annualized / average AuM; net margin = pre-tax income annualized / average AuM. Adjusted net margin excluding certain items included in our reported results is calculated using results excluding such items, applying the same methodology
- Mandates reflect advisory and discretionary mandate volumes
- Mandate penetration reflects advisory and discretionary mandate volumes as a percentage of AuM, excluding those from the external asset manager business
- Parent means Credit Suisse AG on a standalone basis. All CET1 capital and CET1 ratio figures shown in these presentations for Parent are Swiss capital metrics
- Client Business Volume includes assets under management, custody assets and net loans

## Specific notes

† Regulatory capital is calculated as the average of 13.5% of RWA and 4.25% of leverage exposure and return on regulatory capital, a non-GAAP financial measure, is calculated using income/(loss) after tax and assumes a tax rate of 25% from 2020 onward. For the Investment Bank, return on regulatory capital is based on US dollar denominated numbers. Return on regulatory capital excluding certain items included in our reported results is calculated using results excluding such items, applying the same methodology. Adjusted return on regulatory capital excluding certain items included in our reported results is calculated using results excluding such items, applying the same methodology.

‡ Return on tangible equity, a non-GAAP financial measure, is calculated as annualized net income attributable to shareholders divided by average tangible shareholders' equity. Tangible shareholders' equity, a non-GAAP financial measure, is calculated by deducting goodwill and other intangible assets from total shareholders' equity as presented in our balance sheet.

For end-2Q21, tangible shareholders' equity excluded goodwill of CHF 4,588 mn and other intangible assets of CHF 245 mn from total shareholders' equity of CHF 43,580 mn as presented in our balance sheet.

For end-1Q22, tangible shareholders' equity excluded goodwill of CHF 2,931 mn and other intangible assets of CHF 307 mn from total shareholders' equity of CHF 44,442 mn as presented in our balance sheet.

For end-2Q22, tangible shareholders' equity excluded goodwill of CHF 2,974 mn and other intangible assets of CHF 340 mn from total shareholders' equity of CHF 45,842 mn as presented in our balance sheet.

Our ambition to release USD >3 bn of capital from the Investment Bank over 2021-2022 and our ambition to invest CHF ~3 bn of capital in Wealth Management over 2021-2024 is based on an average of 13.5% risk-weighted assets and 4.25% leverage exposure.
