

RTS 28 Qualitative Summary Report

Reporting Period: January – December 2019

This asset class specific qualitative summary report is issued by Credit Suisse Securities, Sociedad de Valores, S.A., further referred to as “CS”, and prepared pursuant to the obligations set out in Article 27 (6) of Directive 2014/65/EU (“MiFID II”) and Article 3 of Commission Delegated Regulation (EU) 2017/576 (“RTS 28”), and outlines a summary of the analysis and conclusions drawn from our monitoring of the quality of execution obtained on the execution venue where we executed client orders in the previous year for the single asset class we trade in, that is, equities admitted to trading in the Spanish market.

This report covers executed trades from the period January 1, 2019 to December 31, 2019.

A. Explanation of the importance the firm gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when making assessments of the quality of execution

CS will periodically perform an assessment of available Execution Venues based on the factors below, to ensure that it is able to obtain the best possible result when executing orders for their clients. The current Client Order Execution Policy further referred to as “the Policy” is available at

<https://www.credit-suisse.com/es/es/investment-banking/legal/entidades-securities.html>

In order to perform this assessment of the best possible result for a client, CS will

give consideration to a range of execution factors when determining the best outcome. Some of the below factors will be considered to be more important than others. In addition, it should be noted that any specific client instruction will take preference over these execution factors.

The execution factors that CS will consider for the assessment of its sole execution venue are:

- Speed of execution
- Likelihood of execution
- Price
- Costs
- Speed of settlement
- Likelihood of settlement
- Size of the order
- Nature of the order

B. Description of any close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders

CS maintains appropriate policies governing conflicts of interest which are strictly applied in relation to the bank's use of and interests in execution venues. A summary of our Global Conflicts of Interest Policy is available at

<https://www.credit-suisse.com/media/assets/investment-banking/docs/financial-regulatory/summary-conflicts-policy.pdf>

For Class of Instrument: Equity Derivatives: Swaps and other Equity Derivatives all our client orders were executed with CS as the execution venue

and therefore we have nothing further to disclose.

C. Description of any specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received

There is no such arrangement with the execution venues where CS routes its orders.

D. Explanation of the factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred

There was no change in the venues used by CS during the year of reference.

E. Explanation of how order execution differs according to client categorization, where the firm treats such category of client differently and where it may affect order execution arrangements

CS only has professional clients. CS business is not directed at, or intended for retail clients and should not be considered by such persons.

F. Explanation of when other criteria were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client

CS did not have any Retail clients during the reporting period and does not expect to have them in the foreseeable future.

G. Explanation of how the investment firm has used any data or tools relating to the quality of execution including any data published under 27(10)(a) of Directive 2014/65/EU (execution quality reports published by execution venues)

CS uses the execution quality reports issued under Commission Delegated Regulation (EU) 2017/575 ("RTS 27") by the execution venues where orders are routed in order to analyze the quality of the execution. Should the analysis defined in section A above, on the periodical analysis to be performed on the quality of execution, show that other execution venues offer better results than the ones selected, a decision will be taken at Group level on whether other venues are acceptable, and in this instance, the data tools available at Group level will be leveraged to analyze quality of execution.

H. Explanation of how the investment firm has used, if applicable, output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU which will allow for the development of enhanced measures of execution quality or any other algorithms used to optimize and assess execution performances.

CS does not use output from a consolidated tape provider.
