

THIRD SUPPLEMENT DATED 29 OCTOBER 2021

TO CREDIT SUISSE AG REGISTRATION DOCUMENT DATED 11 JUNE 2021 AND THE PROSPECTUSES LISTED IN SCHEDULE 1

This supplement (the “**Third Supplement**”) dated 29 October 2021 supplements (i) for the purposes of Article 10(1) and Article 23(5) of Regulation (EU) 2017/1129, the Credit Suisse AG EU Registration Document which is dated and was approved by the *Commission de Surveillance du Secteur Financier* (the “**CSSF**”) on 11 June 2021 (the “**EU Registration Document**”), and (ii) the Credit Suisse AG Swiss Registration Document which is dated and was approved by the Swiss Reviewing Body on 11 June 2021 (the “**Swiss Registration Document**”), and, together with the EU Registration Document, the “**Registration Document**”) in each case on the terms and for the purposes described therein. This Third Supplement constitutes the third supplement to the EU Registration Document and the Swiss Registration Document respectively. The terms used but not defined in this Third Supplement have the same meaning as such terms used in the Registration Document. For the avoidance of doubt, this Third Supplement has been approved by the CSSF only insofar as it relates to the EU Registration Document.

This Third Supplement is dated, and has been filed with the Swiss Reviewing Body on, 29 October 2021. For the avoidance of doubt, this Third Supplement has been approved by the Swiss Reviewing Body only insofar as it relates to the Swiss Registration Document.

This Third Supplement is supplemental to, and should be read in conjunction with, the Registration Document as supplemented by the first supplement to the Registration Document dated 20 July 2021 (the “**First Supplement**”) and the second supplement to the Registration Document dated 5 August 2021 (the “**Second Supplement**”) (collectively, the “**Existing Supplements**”), including the documents incorporated by reference therein. To the extent that there is any inconsistency between (a) any statement in this Third Supplement or any statement or information incorporated by reference into the Registration Document by this Third Supplement and (b) any other statement or information in or incorporated by reference into the Registration Document as supplemented by the Existing Supplements and/or (c) any other statement or information in or incorporated by reference into the prospectuses listed in Schedule 1 hereto, the statements or information in (a) above will prevail.

This Third Supplement has been produced to (i) incorporate by reference specified portions of the Form 6-K Dated 19 October 2021 (as defined below), (ii) provide information about changes to the Executive Board and Board of Directors of CS and (iii) update the sections titled “*General Information—2. Ratings* (pages 33-34), “*General Information—5. Significant and Material Change*” (pages 35-37), “*General Information—6. Names and Addresses of Directors and Executives*” (pages 37-56), “*General Information—10. Amendments to the section titled “2. Ratings” in the Registration Document

The section titled “*General Information—2. Ratings*” beginning on page 33 of the Registration Document is hereby amended and restated as follows:

The credit ratings of CS referred to in this Registration Document have been issued by S&P Global Ratings Europe Limited (“**S&P**”), Fitch Ratings Limited (“**Fitch**”) and Moody's Investors Service Ltd. (“**Moody's**”).

CS has an issuer credit rating of “A+” from S&P, a long-term issuer default rating of “A” from Fitch and an issuer credit rating of “A1” from Moody's.

Explanation of ratings as of the date of this Registration Document:

“A+” by S&P: An obligor rated “A” has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories; the modifier “+” is appended to the rating to denote the relative standing within the rating category.

“A” by Fitch: An “A” rating denotes expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

“A1” by Moody's: Obligations rated “A” by Moody's are judged to be upper-medium grade and are subject to low credit risk; the modifier “1” indicates that the obligation ranks in the higher end of its generic rating category.

S&P is established in the EEA and registered under Regulation (EC) No. 1060/2009 (as amended) (the CRA Regulation). Fitch and Moody's are established in the United Kingdom (UK) and registered in accordance with Regulation (EC) No. 1060/2009 as it forms part of UK

domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA) (the UK CRA Regulation).

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes in the EEA, unless such ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances. Such general restriction will also apply in the case of credit ratings issued by third country non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre- 2021 ratings, provided the relevant conditions are satisfied.

If the status of the rating agency providing the rating changes for the purposes of the CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable. The ratings issued by Fitch are endorsed by Fitch Ratings Ireland Limited (Fitch Ireland). The ratings issued by Moody's Investors Service Ltd. are endorsed by Moody's Deutschland GmbH (Moody's Deutschland). Fitch Ireland and Moody's Deutschland are established in the EEA and registered under the CRA Regulation. As such, each of S&P, Moody's Deutschland and Fitch Ireland is included in the list of credit rating agencies published by the European Securities and Markets Authority (ESMA) on its website (at www.esma.europa.eu/page/List-registered-and-certified-CRAs) in accordance with the CRA Regulation.

The ratings issued by S&P are endorsed by S&P Global Ratings UK Limited (S&P UK). S&P UK is established in the UK and is registered in accordance with the UK CRA Regulation. As such, the ratings issued by S&P may be used for regulatory purposes in the UK in accordance with the UK CRA Regulation.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

1. Liquidity risk arising from potential inability to borrow or access the capital markets on suitably favourable terms (including due to adverse changes in its credit ratings) or to sell its assets. This may also arise from increased liquidity costs. CS relies significantly on its deposit base for funding, which may not continue to be a stable source of funding over time.
2. Risks arising from the impact of market fluctuations and volatility on CS's investment activities (against which its hedging strategies may not prove effective). The spread of COVID-19 and resulting tight government controls and containment measures implemented around the world have caused severe disruption to global supply chains and economic activity, and the market has entered a period of significantly increased volatility. The spread of COVID-19 is continuing to have an adverse impact on the global economy, the severity and duration of which is difficult to predict, and has adversely affected CS's business, operations and financial performance. In addition, there can be no assurance that, even after adjustments are made to model outputs, the Group will not recognize unexpected losses arising from the uncertainty relating to its modelling for current expected credit losses that has resulted from the COVID-19 pandemic. The COVID-19 pandemic has significantly impacted, and is likely to continue to adversely affect CS's credit loss estimates, mark-to-market losses, trading revenues, net interest income and potential goodwill assessments, and may also adversely affect its ability to successfully realize its strategic objectives. To the extent the COVID-19 pandemic continues to adversely affect the global economy, and/or CS's business, operations or financial performance, it may also have the effect of increasing the likelihood and/or magnitude of other risks described herein, or may give rise to other risks not presently known to CS or not currently expected to be significant to its business,

operations or financial performance. CS is closely monitoring the potential adverse effects and impact on its operations, businesses and financial performance, including liquidity and capital usage, though the extent of the impact is difficult to fully predict at this time due to the continuing evolution of this uncertain situation. CS is also exposed to other unfavourable economic, monetary, political, legal, regulatory and other developments in the countries in which it operates (as well as countries in which CS does not currently conduct business), including uncertainties regarding the expected discontinuation of benchmark rates. CS's significant positions in the real estate sector – and other large and concentrated positions – may also expose it to larger losses. Many of these market risk factors, including the impact of COVID-19, may increase other risks, including CS's credit risk exposures, which exist across a large variety of transactions and counterparties and in respect of which it may have inaccurate or incomplete information. These are exacerbated by adverse economic conditions and market volatility, including as a result of any defaults by large financial institutions (or any concerns relating thereto). The suspension and ongoing liquidation of certain supply chain finance funds and the failure of a US-based hedge fund to meet its margin commitments (and CS's exit from its positions relating thereto) may continue to have negative consequences for CS.

3. CS's ability to implement its current strategy, which is based on a number of key assumptions, is subject to various factors outside its control, including market and economic conditions and changes in law. The implementation of CS's strategy may increase its exposure to certain risks, including credit risks, market risks, operational risks and regulatory risks. The implementation of CS's strategy relating to acquisitions and other similar transactions subjects it to the risk that it may assume unanticipated liabilities (including legal and compliance issues), as well as difficulties relating to the integration of acquired businesses into its existing operations.
4. Country, regional and political risk in the regions in which CS has clients or counterparties, which may affect their ability to perform their obligations to CS. In part because an element of its strategy is to increase CS's private banking businesses in emerging market countries, it may face increased exposure to economic, financial and political disruptions in those countries, which could result in significant losses. Related fluctuations in exchange rates for currencies (particularly for the US dollar) may also adversely affect CS.
5. A wide variety of operational risks arising from inadequate or failed internal processes, people or systems or from external events, including breaches of cyber-security and other failures of information technology. CS relies heavily on financial, accounting and other data processing systems, which are varied and complex, and may face additional technology risks due to the global nature of its operations. CS is thereby exposed to risks arising from human error, negligence, employee misconduct, fraud, malice, accidental technology failure, cyber-attack and information or security breaches. This also exposes CS to risk from non-compliance with existing policies or regulations. Protecting against threats to CS's cyber-security and data protection systems requires significant financial and human resources. The ongoing global COVID-19 pandemic has increased the vulnerability of CS's information technology systems and the likelihood of damage as a result of a cybersecurity incident because of the wide-scale and prolonged shift to remote working for CS's employees and the increased reliance by CS's customers on remote (digital) banking services. CS's existing risk management procedures and policies may not always be effective against such risks, particularly in highly volatile markets, and may not fully mitigate its risk exposure in all markets or against all types of risk. Moreover, CS's actual results may differ materially from its estimates and valuations, which are based upon judgment and available information and rely on predictive models and processes. The same is true of CS's accounting treatment of off-balance sheet entities, including special purpose entities, which requires it to exercise significant management judgment in applying accounting standards; these standards (and their interpretation) have changed and may continue to change. In addition, physical and transition climate risks could have a financial impact on CS either directly, through its physical assets, costs and operations, or indirectly, through its financial relationships with its clients.
6. CS's exposure to legal risks is significant and difficult to predict and the volume and amount of damages claimed in litigation, regulatory proceedings and other adversarial proceedings against financial services firms continues to increase in many of the principal markets in which CS operates. Changes in regulation (including in relation to sanctions) and monetary policy applicable to CS (as well as regulations and changes in enforcement practices applicable to its clients) may adversely affect its business and ability to execute its strategic plans and increase costs, as well as impact the demand from clients for CS's services. Moreover, CS's ability to attract and retain customers, clients, investors and employees, and conduct business transactions with its counterparties, could be adversely affected to the extent its reputation is damaged, which could arise from various sources, including if its procedures and controls fail (or appear to fail). In addition, Swiss resolution proceedings may affect CS's shareholders and creditors.
7. CS faces intense competition in all financial services markets, which has increased as a result of consolidation, as well as emerging technology and new trading technologies (including trends towards direct access to automated and electronic markets and the move to more automated trading platforms). In such a highly competitive environment, CS's performance is affected by its ability to recruit and retain highly skilled employees.
